Cook Children's Health Care System and Celina ISD Announce Partnership to Support Growing Student Community

A new school-based health care model brings Cook Children's pediatric expertise directly to Celina ISD campuses starting Fall 2025

Celina, Texas - Cook Children's Medical Center - Prosper and Celina Independent School District (ISD) are proud to announce a new pediatric health care partnership launching in the 2025-2026 school year. This collaboration brings Cook Children's trusted pediatric care directly into Celina ISD, ensuring students have fast, expert access to health services – right from school.

"As two organizations committed to putting children first, this partnership represents a natural alignment," said Kevin Greene, president of Cook Children's Medical Center – Prosper. "We're honored to partner with Celina ISD in our continued Promise: Everything for the child."

This partnership reflects the spirit of Celina ISD's guiding motto, Life Connected, by embedding high-quality pediatric care into the daily experience of nearly 6,000 students in one of Texas' fastest-growing school districts.

"Cook Children's has cared for generations of children across North Texas, just as Celina ISD has shaped their minds and futures," said Tom Maglisceau, Ph.D., superintendent of Celina ISD. "Together, we're ensuring every student is both well-educated and well-cared for."

What the Partnership Means for Families

Beginning in Fall 2025, students at all Celina ISD campuses will benefit from:

- **Access to Cook Children's Virtual Health** through the school nurse's office, enabling real-time video visits with pediatric providers.
- **In-school diagnosis and treatment** for common illnesses such as fevers, earaches, rashes, sore throats and pink eye – minimizing classroom disruptions and parent work absences.
- **Seamless communication with primary care providers**, prescription support and visit summaries.

This proactive model of care ensures kids stay healthier, in school longer, and connected to both learning and healing. Learn more about [Cook Children's Virtual Health program at Celina ISD here.](#)

About Cook Children's

Cook Children's is more than a health care system: we strive to be an extension of your family, growing with your child from their first steps to adulthood. By collaborating to deliver on our Promise—to improve the well-being of every child in our care and our communities, we connect the dots for our patients. Between primary and specialty. Between home and medical home. Between short-term care and long-term health.
