

**CookChildren's.**

## FREE sports electrocardiograms (EKGs) with physician referrals

Cook Children's cares for your patients. Our sports EKGs can identify the risk for sudden cardiac arrest in children age 11 or older.

Adding this test will enhance detection of some conditions that may lead to sudden cardiac arrest.

Criteria required for sports EKGs:

- No family history of sudden cardiac arrest
- No cardiac symptoms
- A normal physical exam

These FREE sports EKGs are offered during the following months:

- **February • May • August • October**

### Primary care physician referral

Patient name \_\_\_\_\_

Date of birth \_\_\_\_\_

Primary care physician (PCP) \_\_\_\_\_

PCP phone \_\_\_\_\_

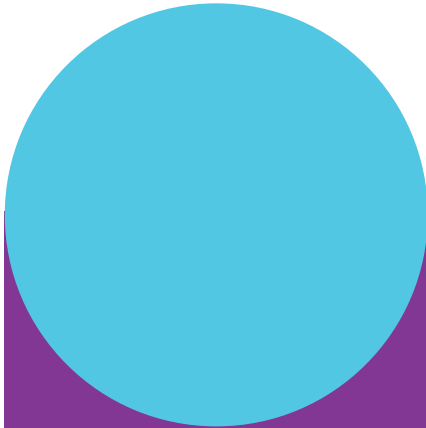

PCP fax \_\_\_\_\_

Results will be faxed to referring physician.

Primary care physician signature (required)
