

Billing information

Please check your insurance benefits to ensure coverage for a specialty outpatient visit and to ensure that we are in network with your insurance company before your visit.

If you do not have insurance:

A deposit will be required for the office visit prior to seeing the physician. This is considered a deposit, not the full bill, as we will not know the exact fees until after your visit is complete. Please refer to cookchildrens.org/billing to find financial answers or billing assistance.

If you have insurance:

You may be subject to a copay. If so, it will be applied to the bill. Your insurance may apply all or part of your charges to your deductible. If you have not met your deductible, you may have a balance due at the time of your visit.

- I read, understand and agree with the above financial policy.
- I understand that charges not covered by my insurance, as well as applicable copayments and deductibles, are my responsibility.
- I authorize that my insurance benefits will directly pay Cook Children's.
- I authorize Cook Children's to release pertinent medical information to my insurance company when requested or to facilitate payment of a claim.

Printed name: _____ **Signature:** _____ **Date:** _____

24-hour notice is required for all cancellations.
